Indmar Dealer Portal

Introduction:

The Indmar dealer portal is a web site provided by Indmar for dealers to Purchase parts, review past sales orders, invoices, and credit memos, download files and forms, make and review warranty claims, and register or transfer registration of Indmar brand engines.

In this document we will be reviewing the navigation, functionality, and uses of the Indmar dealer portal. This document is intended to be used as a manual for all areas of the web site.

The items to be reviewed;

- Account Maintenance such as changing your password
- How to download files and forms from the site
- Navigating the products tab to purchase parts
- How to review and edit your cart
- How to checkout and change shipping information to include drop shipping
- How to inquire on sales orders, invoices, and credit memos
- Making and reviewing warranty claims
- Registering an engine and transferring the registration of an engine

At the end of this manual are considerations and errors to review if you are having issues with the site.

Logging in

1. Go to the website (dealers.indmar.com) Enter your username in the Username field.(**Note:** this is the customer number minus the 00-, Example A123456)
2. Enter your password In the Password Field.
3. Press Login to proceed to the website.

Log In

User Name:

Password:

Remember me next time.

Change Password.

[Reset Password](#)

Reset Password

This option is to reset your password for the account if you have forgotten or lost the password. **NOTE:** You must have access to the E-Mail account associated to the website account to access the email with the new password.

1. Press the Reset Password link.

Log In

User Name:

Password:

Remember me next time.

Change Password.

[Reset Password](#)

2. This will take you to the reset page. At this point you must type your user name into the user name field. **Note:** this is typically your Indmar customer number without the preceding "00-".

3. Press the submit box.

The screenshot shows the Indmar Online Store interface. At the top left is the Indmar Marine Engines logo. To the right, it says 'Online Store'. Below this is a link for 'Forgot Your Password?'. Underneath, there is a prompt: 'Enter your User Name to receive your password.' This is followed by a 'User Name:' label and an empty text input field. A red arrow points to the input field. To the right of the input field is a 'Submit' button, with another red arrow pointing to it.

4. You will receive an E-Mail from indmail@indmar.com with your new password in it. That looks like the following.

From: indmail@indmar.com
Sent: Monday, July 22, 2013 11:15 AM
To:
Subject: eCommerce Account Password Change Notification

Please return to the site and log in using the following information.

User Name:

Password: gx(d66kgC@F5CR

NOTE: All password generated in this way are complex, to avoid mistyping the new password it is good practice to copy and paste the password the first time from the E-Mail with the change password option set.

Change Password option

This option will allow you to change the password associated to your account. Go to dealers.indmar.com and type your username in in the username field.

1. Type your password associated to the account into the password field.
2. Check the change password check box.

3. Press the login button and it will take you to the change password screen.

Navigating the site

This section is an overview of the dealers.indmar.com main page navigation tabs and where they will take you. All sections of the tabs will be explained in detail later in this manual.

Introduction

The main page of the dealers.indmar.com site is designed to break down the desired task by tabs. There are several options in each tab for what you can do on the site.

Home tab

The home tab has 2 options; “Main Page”, and “Account Maintenance.”

Main Page

1. Selecting this option will take you back to the dealers.indmar.com main page from any page on the site.

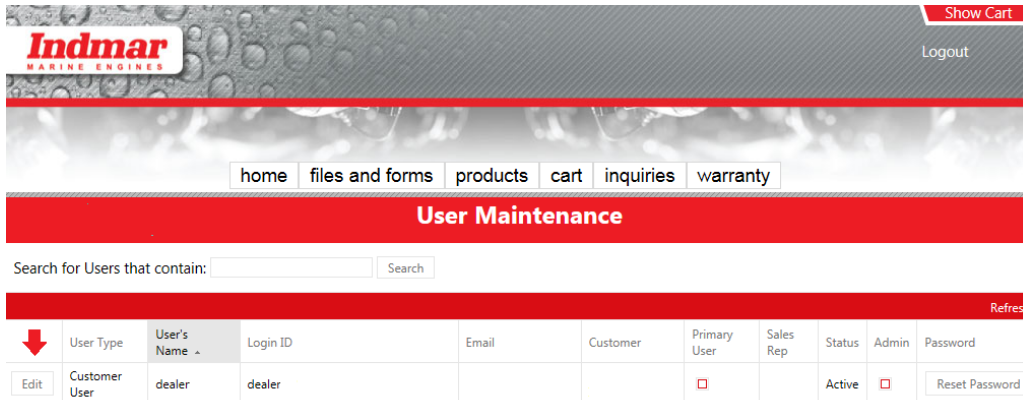

Account maintenance

1. Selecting the account maintenance option will take you to the account maintenance screen where you can edit some of your account details.

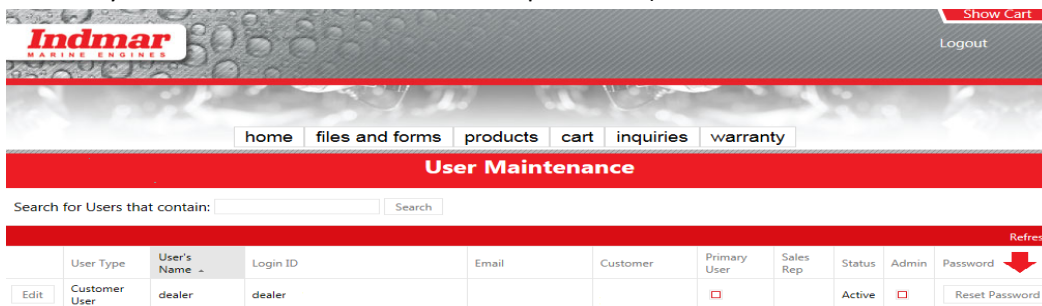

- To edit the details of your account press the “Edit” button.

- Here you can change your user display name, e-mail address associated to the account, or set a custom password. **Note:** You cannot change the account login name.
- Enter the information that you would like to change and then press the update button. (**NOTE:** after hitting the “Update” button it may take up to 30-60 seconds to update.)

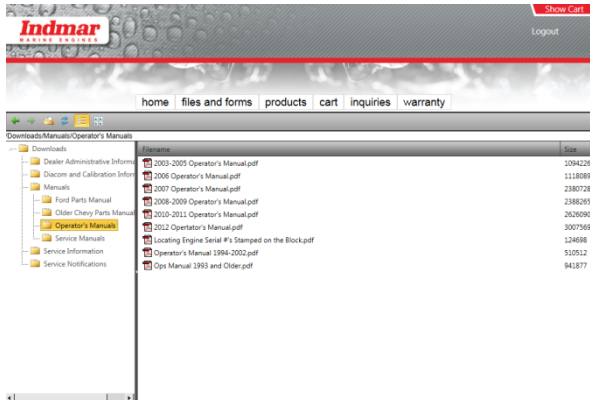

- You may also reset your password on the main account maintenance screen by pressing the “Reset Password” button. (**NOTE:** This will auto generate a password and email it to the E-Mail address associated to the account, if you do not have access to the E-Mail associated to the account you will not be able to retrieve the password.)

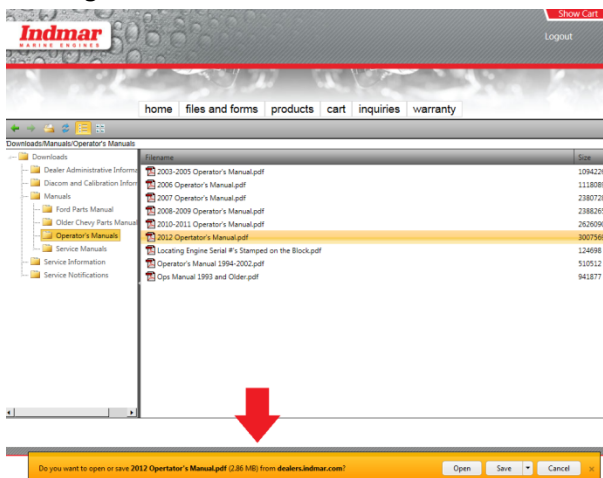

Files and forms tab

Pressing the files and forms tab will take you to the download section of the dealers.indmar.com page. This is where you can download manuals, forms, documentation, service bulletins, ECM configurations, and other related files.

1. To navigate this area left click on the desired folder on the right side of the page. Continue to click on the folders that pertain to what you need until you arrive at the desired item.

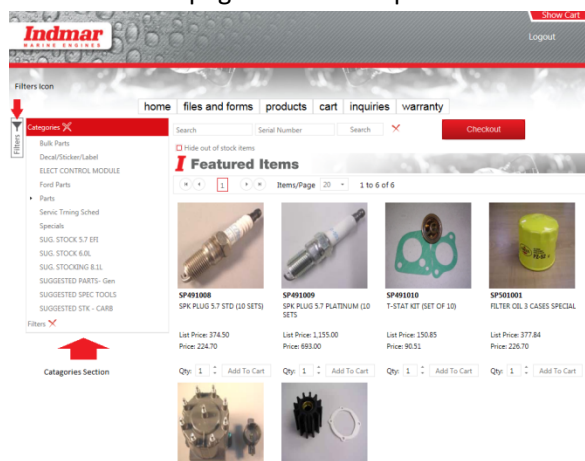

2. Double click on the desired item to download it. Depending on your browser a confirmation screen may appear to begin the download. Choose the appropriate option for you. **NOTE:** You can only download one item at a time by double clicking it. You must wait for it to finish before starting another download.

Products tab

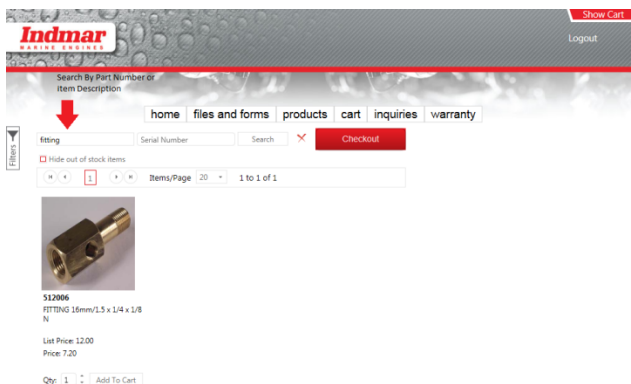

By pressing the products tab you will be sent to the products screen. The products screen is used to search for parts by Part number, Engine serial number, or by name. We will be going over how to use these search functions for this tab in this section. When you go to this screen you start on the featured items screen. These items are placed on this screen as commonly used helpful items.

1. On the left side of the page you will see a “Filters section”. This contains pre-defined categories of parts for sale on the site. If you do not want the filters displayed click the filters icon on the left side of the page to hide this panel.

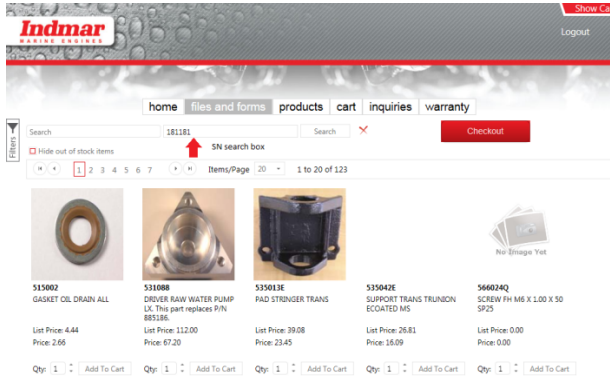

2. You can search by the part number or a description of the part, such as Fitting. This can be done in the upper left box labeled “Search”.(See Below)

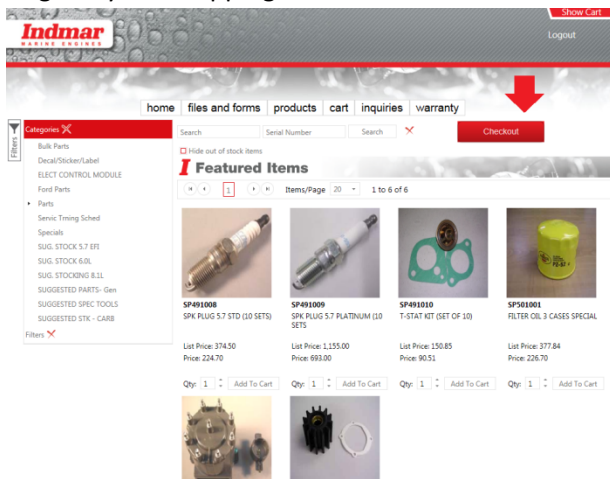

TIP: If your search returns no results try simplifying your search term (I.E. If you search Oil filter bracket and get no results try just searching bracket.)

- You can also search by Engine serial number. This can be done in the upper middle box labeled Serial Number. This will display a list of all parts for that Engine listed as available for sale on the site.

- When you are done shopping you can press the “Checkout” button on any Products screen page to go to your shopping cart for review.

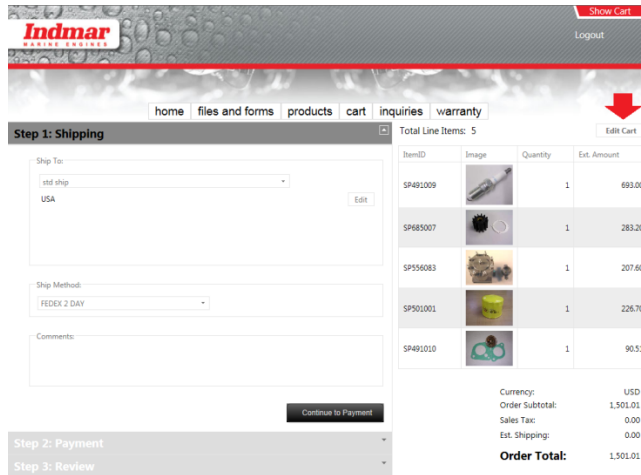

Note: You must purchase at least \$20.00 worth of product to purchase from the online store.

Cart tab

In the cart tab you can edit the quantity of an item, remove items, Change the shipping method, change shipping addresses to include drop shipping, and finalize payments.

1. To edit your cart press the “Edit Cart” button on the top right of the cart screen.

2. In this screen you can edit the quantity of items in your cart or remove items from your cart. You can also hit the “Checkout” button to continue back to the main cart page.

The screenshot shows a detailed view of the cart items. At the top, there are buttons for 'Clear Cart', 'Quick Add', 'Saved Carts', and 'Refresh'. Below is a table with columns for ItemID, Image, Short Description, Quantity, Price, Est. Amount, Comment, Edit, and Delete. Red arrows point to the 'Edit' and 'Delete' buttons for the first item.

ItemID	Image	Short Description	Quantity	Price	Est. Amount	Comment	Edit	Delete
SP491009		SPK PLUG 5.7 PLATINUM (10 SETS)	1	693.00	693.00		Edit	Delete
SP685007		IMPELLER & GSKT (10 SETS)	1	283.20	283.20		Edit	Delete
SP556083		DIST CAP & ROTOR (10 SETS)	1	207.60	207.60		Edit	Delete
SP501001		FILTER OIL 3 CASES SPECIAL	1	226.70	226.70		Edit	Delete
SP491010		T-STAT KIT (SET OF 10)	1	90.51	90.51		Edit	Delete

- There are 4 other options on the red banner in the edit cart menu. “Clear Cart” which clears all items from the cart, “Quick Add” which allows you to add an item to your cart if you know the item number, “Saved Carts” which allows you to load a saved cart for fast checkout, and “Refresh” which can be pressed to update your cart if items have changed but are not reflected on the screen.

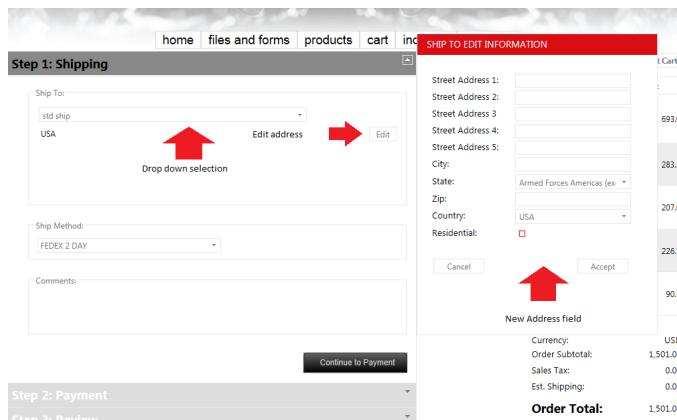

- At the top of the cart page there are two buttons one to go back to the checkout page and the other to go back to the products page for more shopping.

Checkout

On the checkout page the shipping step must be completed to continue you can use the default shipping which is usually your dealer address or use the drop down menu to select STD Shipping and hit the “Edit” button to bring up a blank shipping address form for drop shipping or shipping to another business.

- In the address field there are three options after you fill in the address field. "Accept" which closes the edit window and saves the information; cancel which closes the box without saving the information and the residential check box.(**NOTE:** If the shipment is going to a residential address this field must be checked.)

Warranty tab

Introduction

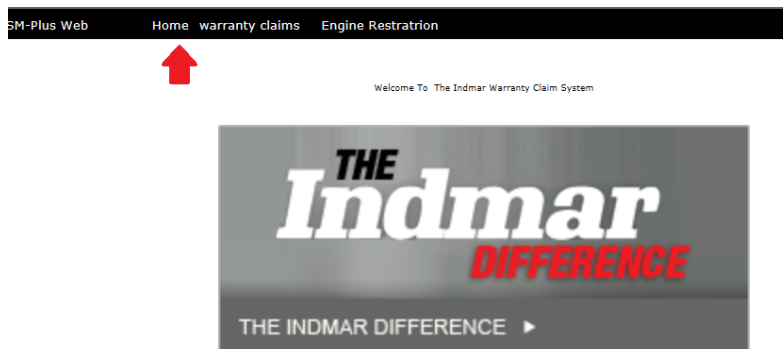

The Indmar warranty tab is designed to enable dealers to Manage and file warranty claims as well as register or transfer engine registrations.

Warranty Section

1. Click the “warranty portal” menu item located in the “warranty” tab. This takes you to the home screen of the warranty portal.

2. The home button takes you back to this screen at any time.

Warranty Claims

In the warranty claims menu section there are two options, “Submit warranty claim” and “review warranty claim”. Here you can make a new claim or review an old claim with these menu items.

Submit warranty claims

1. Click on the Submit Warranty Claim Option.

2. On this screen enter the Serial Number for the engine you wish to submit a claim on.

SM-Plus Web Home warranty claims Engine Registration

Please Enter The Engine's Serial Number.

3. Please note you can only submit a claim on a registered or stock engine. If the engine has not been registered you will see the following screen.

Registration has not been completed for Engine:000099.

4. If the engine has been registered, you will see the following screen providing an open warranty has not already been started. If a claim has already started, read the description of the contact. If it matches that claim you are currently working on, click the blue contact number and you will be taken to the already started claim. If there has been no previously started contact you will see a screen like the following that must be filled out with your information. If the engine has not been registered, you will be given the opportunity to register the engine or process the claim on a Stock Engine if the boat has not yet been sold.

Notes: This screen is much like the warranty claim you have already been using. Following are some requirements for the fields on this screen:

Description: Enter a brief synopsis of the issue for this claim

Contact Name, Contact Phone and Contact E-Mail: Information about the person filling out the claim.

Dealer Claim/Reference Number: You can enter a work order number or other reference number that will help you reconcile the claim. This number will appear on the credit memo when it is issued.

Current Owner: Enter the Current owner's name.

Date of Failure, Date of Repair, and Engine Hours: Enter the information specific to this claim.

Sales Order Number: The sales order number is required for you to be able to claim shipping charges. You must enter all of the characters in the Sales Order Number, including all of the preceding zeroes.

Symptom/Diagnosis: Be specific tell us what the problem or customer complaint was and the steps you took to find out what the problem or cause of the problem was. If there were Data Trouble Codes list them including the SPN and FMI number.

Resolution: Be specific. Tell us what you did to resolve the problem and how you verified that the problem was resolved.

Please Enter The Engine's Serial Number.

Sales Order Number is required for freight reimbursement

Symptoms/Diagnosis:

The Manifold has blown out on the inside.

Resolution:

Replaced manifold and Re-Plumbed water system.

NOTE: All fields are required to submit a claim and a valid sales order number is required to receive freight reimbursement.

5. You will receive a confirmation pop-up similar to the following when successful. Click "Ok" to continue.
6. On the next screen you will be able to enter the items and labor used on this claim. Please fill out all items and labor used. You may make multiple entries. (**Note:** Please submit separate warranty claims for separate issues even if they involve the same engine)

7. You can use the “Find” button for the flat rate codes and item/part numbers. You can download a Flat Rate Guide from the Files and Forms section of the Dealer Portal. You may use a flat rate code more than once. If, for example, you replaced both exhaust manifolds on an engine, you will need to enter the flat rate code for each manifold separately. You can easily find the item/part numbers to enter in the claim by referring to the sales order or invoice that the parts were purchased on.

NOTE: To add non Indmar part numbers such as bilge cleaner, enter NPN as the part number and enter the quantity and cost each. Put a description of the part in the “description” box. For a task that has no specific Flat Rate Code, enter MISC as the code and the amount of time requested. Enter a description of the task in the “Notes” box.

Claim: W000003944
Materials Used

If this is a non-Indmar item, please use the Item NPN and enter the description and cost.

Submit Engine Registration Transfer

4. If the transfer is successful you should see the following message.

Other Considerations and errors

In this section is a quick over view of things to consider when logging into the dealers.indmar.com site.

1. If the site returns an error saying your browser is not supported or looks odd (Such as pictures not showing or in the wrong place) Please make sure your browser is up to date. **NOTE:** There are many browsers with many versions available. If you continue to have issues with your browser please try the latest version of Internet Explorer.
2. If you receive an error when logging in that states. "Your login attempt was not successful. Please try again" Please check the following items to determine what steps to take next.

Log In

User Name:
Password:

Remember me next time.

Your login attempt was not successful. Please try again.

Change Password.

[Reset Password](#)

- a. Verify the user ID is correct.
- b. Check to make sure the caps lock key is not on for your keyboard as all passwords are case sensitive and this may cause a failure if activated.
- c. If there is a number in your password and you are using the number pad section of your keyboard to type it make sure number lock is on or use the number keys located on the top of your keyboard instead.
- d. If multiple users use this account, confirm the password has not been changed by another user.
- e. If none of these work and you have access to the E-Mail associated to the account, use the reset password option if you are permitted by your supervisor or company polices.

Note: The site has a security feature that will lock out a user account after 3 failed attempts. You will have to contact Indmar web support or E-Mail webhelp@indmar.com requesting that your account be unlocked. Please include your business name, E-Mail address, and customer number in the email (If you use the E-Mail option your account will be unlocked and a new password will be automatically generated and emailed to you).

- TIP:** On the top right of the site there is a “Show Cart” button. When you press this button a ribbon will drop down from the top of the site displaying the cart at the top of your screen. Here you can find a “Checkout” button. Click the “Hide Cart” button to make it hidden again.

You may now use the navigation tabs to continue to other parts of the site or use the “Logout” in the top left to leave the site.

Concerns

- If you have questions concerning the site please contact the Web Help department at Indmar.
